### Description

#### VM Reorder (VirtueMart Repeat Order System)

**VM Reorder** is a powerful one-click reorder extension built for **Joomla 5** and **VirtueMart 4+**. It allows customers to instantly repeat any previous order without navigating through categories or product listings — delivering a faster, more intuitive shopping experience.

Crafted by the [JoomFlix engineering team](#), VM Reorder is optimized for usability and speed, designed especially for stores with recurring buyers, wholesale clients, and returning customers who need a frictionless reorder workflow.

### ? Main Features

- ? One-click reorder functionality for logged-in customers
- ? Automatically reloads all products from a previous order
- ? Handles price changes, stock variations and product updates
- ? Works smoothly with VirtueMart's native cart system

- ? Perfect for wholesale, B2B, returning customers and bulk buyers
- ? Clean UI buttons that integrate naturally with any template
- ? AJAX-based operations for fast and smooth interaction
- ? Multi-language support (12 languages included)
- ? Fully compatible with Joomla 5 & VirtueMart 4+

## ? Why Choose VM Reorder

- ? Enhances user experience for regular and repeat customers
- ? Increases conversion rates for B2B & wholesale environments
- ? Reduces checkout time by up to 80%
- ? Extremely lightweight — zero bloat, zero overhead
- ? Seamless integration with VirtueMart order history
- ? Built-in JoomFlix License & Update Server support
- ? Designed for speed, simplicity and real-world ecommerce needs

VM Reorder for Joomla 5 & VirtueMart

One-click repeat orders — fast, intuitive and built for returning customers.
